DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 7-9, and 22-24 are rejected under 35 U.S.C. 102(b) as being anticipated by Sirbola (US 5,356,387).

Sirbola discloses a needle receiving portion at 30, a sheath portion 48,50, and a trigger 42,44 wherein the trigger is movable into engagement with the first and second legs by means of string 38 to move the first and second legs from the first position to the second position.

Allowable Subject Matter

3. Claims 10-21, and 25-30 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
4. Claims 31-33 are allowable over the prior art of record.
5. The following is a statement of reasons for the indication of allowable subject matter: the art of record does not teach or render obvious the trigger being movable to a position between the first and the second legs to urge the respective joints of the first and second legs apart and move the sheath portion to a primed position.
